## UNIVERSITY AT A GLANCE

Maharishi Markandeshwar University was established under the aegis of MM Education Trust which was founded in 1993 in the name of Lord Shiva's devotee "Maharishi Markandeshwar Ji" by renowned promoter of education Shri Tarsem Garg, its founder President. The Trust has made a rapid progress in a span of 18 years, developed its vast campus comprising the institutions of high profile professional courses of Engineering & Technology, Medical Sciences, Dental Sciences, Physiotherapy, Management, Pharmacy, Nursing, Computer, Hotel Management & Catering Technology, Teachers Education and many more with the latest addition of an International School, surpassing the size and standard of most of the conventional universities in the region.

## ABOUT THE DEPARTMENTS

**Department of Mathematics & Humanities** of M.M University is enriched with renowned publications and distinguished faculty members. Most of the faculty members are doctorates from renowned universities. Presently, the department offers Ph.D. Programmes (Mathematics & English), M.Sc. (Mathematics), M.A. (English) and M.Phil. (Mathematics & English). The dept. has published more than 400 papers in renowned National and International journals. Further, the Department has well equipped multi-media language labs for enhancing communication and professional skills of the students and for developing their overall personality.

**Department of Computer Science & Engineering** at MMEC Mullana came into existence in 1995 to provide quality education & training in the field of Computer Science & Engineering. Since its inception, the CSE department has contributed in various research works and has been consistent in imparting excellence in Technical Education. ## AIM & SCOPE

Conferences and seminars are important academic modules that help to produce new knowledge inputs through critical discussions in the contemporary relevant areas and also provide an opportunity to the researchers from institutions and exchange their innovations, visions, strategy, inspiration and creativity. Science, Engineering, Technology and Management roll on the wheels of Mathematics. Mathematics provides the basis to comprehend and unravel the principles and procedures of Science, Engineering, Technology and Management. Validation of Engineering concepts can be ascertained only by the application of mathematical principles. **ITMCIS-17** will provide a platform for researchers, educators, scientists, engineers, industrialists and students to

communicate and discuss research development in Mathematics and its applications in Technology and Management.
