“A Great Visionary par excellence, prodigious contributor leading the masses to the horizon of enlightenment.”

It has been the vision of Shri Tarsem Kumar Garg that students from North India should take a lead owing to their quality technical education which should be made available to them nearer to their homes. Having come from a humble background, Sh. Garg made his mission to do something worth while for the children belonging to rural hinterland and small towns of the region.

In 1993, going forward with his goals, he established the Maharishi Markandeshwar Education Trust (now rechristened as Maharishi Markandeshwar Trust). Under his dynamic leadership, in a span of over 2 decades, the MM Group of Institutions has become one of the nation’s most reputed educational group which commands respect for its state-of-the-art infrastructure & expert faculty. These institutions have broadened the horizons of millions of youth and enriched them with their culture of excellence, social service and inclusiveness.

Young people are integral and essential part of our society. They have an important role to play and our society is incomplete without them. To be honest, genuine, of good values and to work hard for the betterment of one's country should be the focus of youth. They have a duty to use all their capabilities to serve the nation in the best possible manner. It is only youth that can make the difference because youth is the backbone of a nation that can help build a bright society based on values.

Educated youth is the driving force of change that can encourage governments to declare their priorities with a sense of responsibility to build a robust nation. Therefore education becomes an important and the best tool for the successful future of a country. Physical education and sports also form a very important part for overall development of healthy youth.
To boost up the passion and energy in our students, we have initiated the Academic, Arts and Social Clubs.
