FOR WORKSHOP :
ANATOMY DEPT., MMU**

Patron's Address

It is our pleasure to welcome the delegates and faculty for a two day CME in Orthopaedics and spine surgery at our institute. This meeting addresses the advances in keyhole surgery in Spine and trauma (periarticular fractures). I hope it will give you a chance to interact with faculties from India and abroad. This will help to broaden your knowledge on minimally and open access spine procedures by lectures and discussions along with cadaver and hands on workshop. I believe that this meeting will consolidate the scientific content and be of great benefit to the young upcoming Orthopaedic Surgeons, Neurosurgeons & Post graduate trainees.

Thanking you,
Yours sincerely

Mr. Tarsem Garg

Chairman (Organising Committee)

On behalf of the department of Orthopaedics at MM Medical College, Mullana, I have the great pleasure to invite all healthcare professionals esp. Orthopaedics surgeons, Neurosurgeons and Post Graduate trainees to attend our CME in Orthopaedics on 22nd and 23rd Jul 2017. The faculties invited are eminent Orthopaedics & Spine Surgeons from around the country and abroad. The two day meeting will have a day of symposium on "minimally invasive spine surgery"(MISS) techniques and cadaveric hands on workshop and the 2nd day will have symposium on "Periarticular fractures" and sawbone workshops. This scientific program is for updating knowledge and skills for the MISS operations and Periarticular fracture fixation. The organizing committee is looking forward to welcoming the delegates and faculty with local hospitality at its best.

Thanking you,
Yours sincerely,
Dr Manjeet Singh
