19	Students Activity Body	<p>Technology is the ever-changing face of the world. It is often not easy to keep up with the technical knowledge boom around the globe with traditional classroom teaching. The ‘Technocrats’ society provides its members opportunity and platform to learn, practice and get self-actualized in the various domains of technology. The society is aimed to deliver its member with various technical off the syllabus workshops in the campus itself. Furthermore, the society believes that technical and healthy competitive spirit can be inculcated in the students through various technical events and projects. These events and projects provide inertia for the full realization one’s potential and one’s “true self”, which often gets buried under the pressure of regular monotonous class-room teaching.</p> <p>The society, Technocrats, is driven by the goal of making students technically active where in ideas come together and meet-up to <i>Inspire Innovation and Discovery!</i></p>
