MM(DU) believes that any degree that doesn’t make the students ready for the real-world and industry challenges is just half the joy. That’s why we have spearheaded a unique initiative, in fact, first-of-its-kind in the country where we offer opportunities to our students to be a part of professional network right at the campus. We have Set up a Campus Business Park and different Centres of Excellence where professionals and mentors train students and involve them in industry projects. This is how students get to know more about work profile in the industry and move in sync with the world.

At MM(DU), we have also established MM Business Incubation Centre (BIC) which gives the students a chance to be an idea catalytic and try out their entrepreneurial skills. This incubation centre encourages the students to go ahead with their ideas through start-ups. Full support is provided to them by industry mentors, academic mentors and peer groups in the students. There are continuous ongoing efforts to strike more and more tie-ups with leading MNCs to support the start-ups in this incubation centre.
With the mission of "Career choice for every MM Group student", an exclusive division for career development, trainings and placements had been brought into existence in the year 1995.

Today, this division is called the Central Placement Cell (CPC) which works in close coordination with different constituent institutes & group campuses.

The CPC operates in a hub-spoke model.
