Yes

If yes, give a brief description and a list of modules currently operational (maximum 500 words)

MM (Deemed to be University) has adopted EMS (Employee Management System) where all employees of this Deemed to be University are provided a distinguished staff id and login credentials. Each employee has access to EMS and can check their attendance and salary details. Each student of MM (Deemed to be University) is provided with unique login credentials through which students can check their attendance and the module also facilitates to send SMS to concerned parents by mentor faculty of the student. Using login credentials students can access internet (LAN and WiFi) facility provided to them by MM (Deemed to be University). Online feedback modules are adopted to obtain feedback of various stakeholders of MM (Deemed to be University). To facilitate the publication data by faculty/researchers web interface was created on which faculty enters the publication details and

after that he/she is entitled to apply for incentives in accordance with the research promotion policy of MM (Deemed to be University). Faculty appraisal web interface is developed in house in which faculty members fill the appraisal form as prescribed by University Grants Commission and are processed as per regulations of the MM(DU). Accounts modules to facilitate and maintain finance related functions also have been adopted.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

All constituent institutes/Colleges/Departments of MM (Deemed to be University) are having structured system to obtain feedback from Students, Teachers, Alumni, Parents, Employers and Professionals on curricular and other aspects of University/Institute. Students Feedback: Student's Feedback is obtained on regular basis. At the end of semester/year students are asked to give their feedback in the form given to them on Curricular, teaching learning, Infrastructure, Facilities and other aspects. A conducive environment is provided to students and the option of revealing their identity is given to them while collecting feedback. The feedback obtained is analyzed by feedback committee and the

results are transmitted to Principal/Head of Department. The issues are addressed by concerned person through Head of Institute by taking appropriate measures for improvement. Feedback of students on teaching learning process is reviewed and improvement measures are taken to facilitate learning of students. At central level the feedback from students in the form of Student Satisfaction Survey was taken, analyzed by IQAC and report prepared and necessary actions are taken in consultation with appropriate authority. Feedback of outgoing students is also being taken after completion of their final year/semester examination about their learning experience at Institute/Department/ University. The feedback obtained from students is reviewed and appropriate actions are taken for development of University/Institute functioning on various aspects. About 90 percent students gave their rating as '4 to 5 star' as revealed by Report of Student Satisfaction Survey. Teacher's feedback: Teachers feedback is taken about curricular aspects, working environment, freedom to express their views and other aspects of teaching. On the basis of their experience of previous semester/year and students feedback about curriculum is discussed with Head of the Department/Institute and appropriate measure like revision of curriculum, extra classes etc. are initiated to improve the teaching learning process. Alumni Feedback: At different interval Departmental/Institutional alumni meet is conducted to get feedback of alumni working in diversified fields. The objective of getting feedback from alumni is to review existing teaching learning process and its improvement based on recent developments happening in various professional areas. The feedback is very important in order to keep the curriculum in tune with recent developments/needs of industry/society. In addition to feedback taken during alumni meet, the feedback forms are kept available in office of each department/institute, whenever any alumni visits institute, he/she is asked to give his/her feedback and the same is collected and recorded. Feedback from Parents: Feedback from parents of students is taken during parent teacher meet or when parents visit MM(DU). The grievances or suggestions expressed by them are considered and appropriate actions are taken. Employers feedback: The feedback from employers of our students is taken through students, Placement Cell or at individual basis. The feedback from Employers is important to gauge the performance of our passed out students. Feedback from Professional: Feedback from professionals of respective specialization (from Academics or Industry) is taken on curricular aspects and given suggestions are taken into consideration while reviewing/revising the curriculum as and when required.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

An effective mentoring system is existing in MM(DU). The goal of the mentoring system is to establish a trusting relationship with accountability and responsibility between the mentor and mentee. It provides counselling and guidance to the mentees regarding their career related queries and their personal problems and to overcome their grievances. The mentoring system appraises the mentees about the procedure, schemes, facilities scholarship/freeship available and motivates the mentees to take part in extra co-curricular activities. Our mentoring program provides an opportunity to mentees to share their problems and also put their suggestions and to mentors to help the future professionals with proper guidance. Mentor counsel the mentees one to one and assist them with career exploration, project critiques, and skill building, based on mentees' needs and interests. The program begins each Semester with a Mentor-mentees allocation and counseling session which provides an opportunity to the student and mentor to meet and interact for the first time. During the semester, mentees share their

academic as well as personal problems with their respective mentor from time-to-time. In mentoring program, each mentor also arranges counselling session for the corresponding mentees at least once in 15 days. Mentor also communicates with the parents/Guardians regarding the progress telephonically to make aware them about the performance of their wards once in a month. Mentor also despatched the progress report to the parents of each mentee regarding one's attendance record and marks of sessional examination.

The University ensures appropriate allocation and utilization of the available infrastructure and financial support for maintenance and upkeep of different facilities by holding regular meetings of constituted committees for the purpose and using the grants received as per the requirements in the interest and need of students. The colleges/institutes/departments of the University are equipped with world class facilities of labs where the students get exposure to different procedures before going for the actual practice. The labs are having sufficient resources to practice the procedures. Each lab incharge keeps a record of the articles/ equipment present in the lab and lab inventory is checked on a regular basis. In addition, periodic audits are also conducted by IQAC cell. The articles which are nonfunctional are sent for maintenance or replacement. The expired medications are discarded. Any requirement for the new articles/ equipment is written in the indent book and the same is received and added into the stock register. Record of maintenance is maintained by lab technicians and supervised by Laboratory Incharge of the Institute. Other measures to maintain laboratories are as follows: 1. The calibration, repairing and maintenance of sophisticated lab equipments are done by the technicians of related owner enterprises. 2. The computer labs are utilized by the faculty and students for practical work whereas as the Computer centre is used for browsing purposes. The lab technicians are available full time in the Institute to maintain the equipments. A complaint register is maintained in the lab for nonfunctioning equipment. Classrooms: The colleges/departments/institutes of the MM(DU) have a committee for maintenance and upkeep of infrastructure. At the departmental level,

classroom/lab incharges submit their requirements to the Principal regarding classroom furniture and other. The Institute development fund is utilized for maintenance and minor repair of furniture and other electrical equipments. Library: The library is open in the Institute for the staff and students. The Institutes Library Advisory Committee maintains the library upto date. The LCD projectors are available in the lecture theaters for effective teaching. The consumable and non consumable articles procured from central store through Indent book. With the help of the full time sweepers cleanliness of class rooms and computer labs are maintained. They are well equipped with modern tools of cleaning such as mops, gloves and vacuum cleaner. 1. A complaint register is maintained in office in which students as well as faculty can register their problems which are resolved within a set time frame. 2. Students are sensitized regarding cleanliness and motivated for energy conservation by careful use of electricity in classrooms. There are technicians, masons, plumbers, carpenters deputed by management who ensure the maintenance of classrooms and related infrastructure. Suggestion box is installed at appropriate places to take users feedback.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Practice 1 The decentralized governance model is evident in every sphere as each department/faculty functions as a separate sub-unit, in deciding and implementing the student-centric programmes and activities. At various levels the University grooms the leadership and provide opportunities for participative management. Board of body, Management, Principals, Directors, Heads of Departments, Mentors, Academic Coordinator, IQAC Members, Teaching staff, Non-teaching staff, Supporting staff, Student's Council, Student representatives, Stakeholders, Alumni and various other committees for different purposes are empowered to propose, design, formulate and execute their plans within the frame work of University Governance. The constituent institutes/colleges/department are given authority to conduct industrial tours and to have tie up with industry experts and appoint coordinator and convener for organizing seminars/workshops/ conferences/FDPs at their discretion. The Management is participative and regular meetings are convened amongst the Management members, Directors,

Principals, Heads of Departments , Faculty and the Students in implementing plans. All the departments are requested to present their Annual Action Plan at the beginning of every academic year to conduct various activities with a clear roadmap to deliver the same. The matters at the departmental level are discussed by the HOD with the faculty team in consultation with the Principal/ Director. Practice 2:

The academic delivery layout is prepared by the department in consultation with the relevent authorities. The curriculum development is sent through the department by its Board of Studies for the further approval by the Academic Council of the MM(DU). The Dean of Faculty of the institute and Professors are the members of the Academic Council and members of Planning and Monitoring Board wherein the decisions to improve the academic excellence and growth are taken after due discussion.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Use of Solar Power, Water Recycling System, Use of Bicycles in the Campus, Major Communication through Email and less use of paper, Tree Plantation, prohibiting of fuel operated vehicles in campus and promotion of use of battery operated vehicles are some of the initiatives taken by MM (Deemed to be University) to make the campus eco-friendly.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

To provide best possible quality healthcare at affordable cost• iii)Access to a support system during critical stages of academic and career development. iv)Exposure to diverse perspectives and experiences. 6 Problems Encountered and Resources Required. Whenever the mentor dispatched the progress report of their respective mentees, in case of remote areas, the correspondence with parents/guardians becomes difficult. 1. Title of Best Practice: Providing Affordable Quality Health Care and Community and Social Outreach Services 2. Objectives of the Practice: i)• ii)Individual recognition and encouragement. • i)Enhances confidence and offers challenge to set higher goals. •Motivate the mentees to take part in extra co-curricular activities. 3. The Context Mentoring is an increasingly popular way of providing guidance and support to young people in need. Mentoring System in education is a personal developmental relationship in which an experienced or knowledgeable teacher (Mentor) counsel and guide the Students (Mentees) for their overall development. The counselling sessions establishes the mentor as a coach who provides advice to enhance the mentees professional performance and development. 4. The Practice our mentoring program provides an opportunity to mentees to share their problems and also put their suggestions and to mentors to help the future professionals with proper guidance. Mentor counsels the mentees one to one and assist them with career exploration, project critiques, and skill building, based on mentees' needs and interests. The program begins each semester with a mentor-mentees allocation and counselling sessions which provides an opportunity to the students and mentor to meet and interact for the first time. During the semester, mentees share

their academic as well as personal problems with their respective mentor from time-to-time. In mentoring program, each mentor also arranges counselling session for the corresponding mentees at least once in 15 days. Mentor also communicates with the parents/Guardians regarding the progress telephonically to make aware them about the performance of their wards once in a month. Mentor also despatched the progress reports to the parents of each mentee regarding one's attendance record and marks of sessional examination.

5. Evidence of Success • Appraise the mentees about the procedure, schemes, facilities scholarship/freeship available. • Provides counselling and guidance to the mentees regarding their career related queries and their personal problems and to overcome their grievances.

• The goal of the mentoring system is to establish a trusting relationship with accountability and responsibility between the mentor and mentee. • BEST PRACTICES AT MAHARISHI MARKANDESHWAR (DEEMED TO BE UNIVERSITY), MULLANA, AMBALA 1. Title of Best Practice: Mentoring System 2 Objectives of the Practice v) To provide legal aid services 3 The Context: Maharishi Markandeshwar (Deemed to be University),

Mullana is situated in remote rural location. The rural poor population in nearby area (20 km periphery) is dependent primarily on Government primary health care service centers. MM (DU) has a 940 bed hospital associated with Medical College (MMIMSR), a Dental College with dental hospital equipped with state of the art facilities, Two nursing colleges, one Pharmacy College and one physiotherapy college. The MM(DU) along with its hospitals are serving the local population to meet the objectives mentioned above.

4. The Practice: The students, faculty of different constituent institutes/colleges of MM(DU) regularly participate in various community and social outreach activities like free medical camps, Free dental check up camps, health awareness camps, awareness about gender sensitization, gender equity, cleanliness, legal aid camps etc. The above practices are useful for local community on the one hand while on the other providing opportunity to students and faculty to connect with local population. It helps the student to understand the ground realities of healthcare and social status of community.

5. Evidence of Success: MM (DU) is adopting the methodologies for development of facilities and meeting needs of local social periphery. The university is located in rural location. A 940 bedded NABH accredited super specialty hospital is fully functional with state of the art modern facilities (like MRI, CT Scan, Advance surgeries etc.) to serve local health care needs. Providing healthcare services at nominal cost is the biggest strength of the University. Along with this through

curricular, extracurricular and outreach activities (Rural posting of interns, organizing health camps for rural population, establishing PHCs in nearby villages like Mullana, Barara, organizing blood donation camps, social surveys, field projects, NSS activities etc) university is playing a major role in development socio-economical status of nearby villages (Mullana, Budhia, Sohana, Dosarka, Barara).

A large number of local population was benefited by services offered by MM(DU). 4. Problems Encountered and Resources Required: During efforts made by students and faculty to uplift the healthcare status of local community, it was observed that economic condition of poor villagers is not allowing to get optimal advantages of services offered by the MM(DU). Establishment of communication in local languages sometimes become a barrier in offering quality health care services. Resource limitation is observed to get broader coverage of community to provide benefits of services provided by the MM(DU). •

iv) To provide education and awareness on socially relevant issues • iii) To provide education and awareness on health issues to deprived poor local community. • ii) To provide best community health services

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

MM (Deemed to be University) has 11 constituent institutes/college/departments with distinctiveness in different fields (Medical Science, Dental Sciences, Nursing, Pharmacy, Physiotherapy, Engineering and technology, Computer Science Application, Management, Law and Hotel Management and Catering Technology). MM (DU) got accreditation by NAAC on 16th November 2015 (with CGPA 3.06 Grade A) and in year 2020 shall undergo the Assessment and Accreditation by NAAC in 2nd cycle as Health Science (Deemed to be University). Many of programs offered by the MM(DU) are having provisions (offering specific courses, internships, field projects, industry visits, social and outreach activities etc.) to promote link of the students with the society/industry so that students get engaged in socially productive activities during their period of study in the institutions. Through curricular and extracurricular activities, MM(DU) is successful to train the students in essential professional and soft skills such as team work, communication skills, leadership skills, time management skills etc inculcate human values and professional ethics, and the spirit of innovation/entrepreneurship and critical thinking among the students and promote avenues for display of these talents. Following are certain distinct areas/domains/activities in which this Deemed to be University excelled. 1.At the beginning of the academic session every constituent institute of MM (DU) organizes an induction program for newly admitted students. The objective of the program is to make new students conversant with the system and environment of the MM(DU) that is helpful in making their stay pleasant, comfortable for fruitful learning. 2.The MM(DU) is having state of the art infrastructure that includes Smart Classrooms, ICT enabled classrooms with WiFi and LAN internet connections, simulation laboratories, seminar halls, language labs, library etc that enable teachers to use ICT enabled tools for better teaching process. MM (DU) is adopting the methodologies for development of facilities and meeting the needs of local social periphery. TheMM(DU) is located in rural location. A 940 bedded NABH accredited super specialty hospital is fully functional with state of the art modern facilities (like MRI, CT Scan, Advance surgeries etc.) to serve local health care needs. Providing healthcare services at nominal cost is the biggest strength of the Deemed to be University. In addition through curricular, extracurricular and outreach activities (Rural posting of interns, organizing health camps for rural population, establishing PHCs in nearby villages like Mullana, Barara, organizing blood donation camps, social surveys, field projects, NSS activities etc) MM(DU) is playing a major role in development socio-economical status of nearby villages (Mullana, Budhia, Sohana, Dosarka, Barara) 3.This Deemed to be University has is continuously been putting serious efforts to promote quality research culture and output. Formation of a dedicated research promotion group, implementation of Research Promotion Policy that has inbuilt providing for the grant of financial incentive to faculty and researchers for quality research work, purchase of sophisticated research equipments, establishment of central research laboratory with state of the art research facility, motivating the
