## Learning Management System (LMS)

### Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

Online Learning centre of this Deemed to be University will use MOODLE/MS Team platform as a LMS for the implementation of Online courses

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

Assessment mechanism	Assessment of the students will be done on the basis of continuous evaluation throughout the semester followed by an external examination. Internal assessment will be of 30 marks comprising class tests, viva- voce and other activities as well on regular intervals. To judge the level of understanding of a concept/topic is the real objective of this evaluation process as it brings out the hidden abilities, capabilities, desires and interests of the students so that they can be guided accordingly for a better performance. At the end of the semester, an external (theory) exam of 70 marks will be conducted based on the whole syllabus covered during the academic session. The total of marks obtained from internal assessment and external exam will be converted into CGPA (Cumulative Grade Point Average).
Identified technological interface and interoperability	In the era of technological advancement, the mode of communication between the teachers and students have been changed. Apart from discussion on online platform, students can get extra learning material. In order to provide them first-hand knowledge, more stress is laid on self-study. In this regard, e-Resources will be provided to the students. Having a lot of e-material in the form of books, DVD, CD, Video, Audio etc., is available in the library. Any library resources can be accessed via computer by twenty four e-resource items viz., electronic journals; scholarly databases; information gateways and the Internet materials. The ability to understand and use these practical and conceptual tools leads to overall development of the students.
Learner's Authentication Requirements	The Higher Educational Institutions shall exercise proper learner's authentication practice to ensure the academic integrity and all the Indian learners, at the time of enrollment, synchronous/ asynchronous participation and all assessments for examinations, shall be required to provide the Adhaar number or other government recognized identifier, as applicable and verify their information for authentication for which necessary infrastructure or support shall be provided to them by the Higher educational Institutions.
Learner Registration - through a web application	The students can get themselves registered through a web link provided by the institution.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	Active engagement in online mode will be monitored via participation in a number of activities, e.g, group discussions, assignment activity and the analytics of Learning Management System shall be used for ensuring the learner's participation at least for two hours every fortnight. The main purpose of these activities is to improve soft skills of the students and make them more confident and expressive.
Payment Gateway –using Digital Payment system	The students can submit their fees using Digital Payment System provided by the institution.
Tracking the delivery of a Course or programme	The Centre for Internal Quality Assurance Committee of the University will plan and execute programme monitoring and review system to maintain the quality of an online course. In this regard, the institution shall consider the attainments of learning outcomes that are assessed through various tools used for internal and external evaluation.
Technical Know-how or Skills Requirements	The institution has a defined criteria for the technical know-how and skill requirements of the online programme coordinators, course coordinators, course mentors and other staff ascertain that all the resources are competent to deliver online education effectively from the learner learning perspective and continuous up-gradation of skills shall be essential for embracing newer methodologies and Information technology tools for enhancing the development and delivery of the online courses in the long run.
