	Placement Facilities :	The University features a specialized Placement Department, managed by a team of industry-connected professionals. This team facilitates numerous placement opportunities tailored to students' specific fields and interests. The placement journey begins with a comprehensive student induction and orientation program, followed by an in-depth exploration of each student's interests and preferred areas of placement. To ensure students are well-prepared, the Placement Department conducts 360-degree training programs, including assessments and mock interviews. This thorough preparation equips students with the skills and confidence needed to excel in the placement process. Throughout this journey, the Placement Department provides continuous guidance and counseling, starting from day one until students successfully embark on their professional journey with a company. Regular sharing of constructive feedback from corporate partners keeps students informed about evolving corporate needs and market trends. Initiating the placement process, the Placement Department disseminates company details to students through various channels, such as University Notice Boards, mailers and WhatsApp groups. They organize essential training sessions, coordinate group discussions, personal interviews with company officials, and oversee final selection procedures. Within each University department, a dedicated Placement Coordinator, drawn from the faculty, collaborates with the Placement Department to guide students through scheduled placement drives. The culmination of this process is the day of campus placement, where students showcase their skills and talents, leading to successful selections in reputable companies.
